

ANANYA SHARMA

DATA SCIENCE | MACHINE LEARNING

Bhubaneswar, Odisha | +91-XXXXXXXXXX | ananya@email.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Computer Science postgraduate with hands-on experience in Python, SQL, machine learning, deep learning, data analysis, and visualization. Developed end-to-end ML projects involving data preprocessing, feature engineering, model training, hyperparameter tuning, and evaluation. Experienced with Scikit-learn, TensorFlow, Pandas, Power BI, and Streamlit.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript

Data Analysis: Pandas, NumPy, SciPy

Visualization: Matplotlib, Seaborn, Power BI, Tableau

Machine Learning: Regression, Classification, Clustering, Feature Engineering, Model Evaluation

Deep Learning: TensorFlow, Keras, LSTM, CNN

Databases: MySQL, Microsoft SQL Server

Deployment: Streamlit

Tools: Jupyter Notebook, VS Code, Git, GitHub

PROJECTS

House Price Prediction | *Python, Scikit-learn*

- Developed an end-to-end machine learning pipeline for house price prediction.
- Performed data cleaning, categorical encoding, feature scaling, and exploratory data analysis.
- Compared Decision Tree, Random Forest, Extra Trees, and Gradient Boosting models.
- Applied hyperparameter tuning and achieved 0.953 R² with 160.52 RMSE using tuned Gradient Boosting.

Sarcasm Detection | *Python, TensorFlow, NLP, LSTM, Streamlit*

- Developed an NLP classification system using 28,617 news headlines to identify sarcastic content.
- Applied text preprocessing, tokenization, and sequence padding with a vocabulary size of 20,000.
- Compared Logistic Regression with TF-IDF, LSTM, Bidirectional LSTM, and GRU models.
- Achieved 85.05% test accuracy, 84.94% F1-score, and 0.932 ROC-AUC.
- Deployed the model using Streamlit.

BlinkIT Sales Analysis Dashboard | *SQL, Microsoft SQL Server, Power BI*

- Analyzed 8,500+ retail transactions using Microsoft SQL Server.
- Used SQL queries to investigate sales, product, outlet, and customer-related metrics.
- Built an interactive Power BI dashboard with KPIs, filters, and visualizations.

Airline Price Analysis | *Power BI, Tableau*

- Analyzed airline ticket pricing based on airline, route, class, and days remaining before departure.
- Built interactive dashboards using charts, filters, and KPI visualizations.
- Examined pricing patterns across different travel conditions.

EDUCATION

M.Sc. Computer Science — XYZ University | 2024–2026

B.Sc. Computer Science — ABC University | 2021–2024

SPECIALIZATION

Applied Data Science and AI — E&ICT; Academy, IIT Guwahati

CERTIFICATIONS

Applied Data Science and AI | Machine Learning | Python for Data Science | Data Analytics
