CAREER OBJECTIVE

Motivated Computer Science postgraduate seeking an entry-level Data Scientist position. Interested in data analysis, machine learning, and artificial intelligence. Looking for an opportunity to apply technical knowledge and develop professional skills.

TECHNICAL SKILLS

Programming: Python, SQL

Libraries: Pandas, NumPy, Matplotlib, Scikit-learn

Machine Learning: Regression, Classification, Clustering

Visualization: Power BI, Tableau

Database: MySQL

Tools: Jupyter Notebook, VS Code, Git

PROJECTS

House Price Prediction | *Python, Scikit-learn*

- Used Python and machine learning algorithms to predict house prices.
- Performed data preprocessing and exploratory data analysis.
- Used Random Forest, Decision Tree and Gradient Boosting.
- Evaluated models using RMSE and R^2 .

Customer Churn Prediction | *Python, Machine Learning*

- Analyzed customer data to predict churn.
- Performed data cleaning and preprocessing.
- Applied machine learning classification algorithms.
- Evaluated model performance using accuracy.

Sales Dashboard | *SQL, Power BI*

- Created a Power BI dashboard using sales data.
- Analyzed sales and product performance.
- Created charts and interactive filters.
